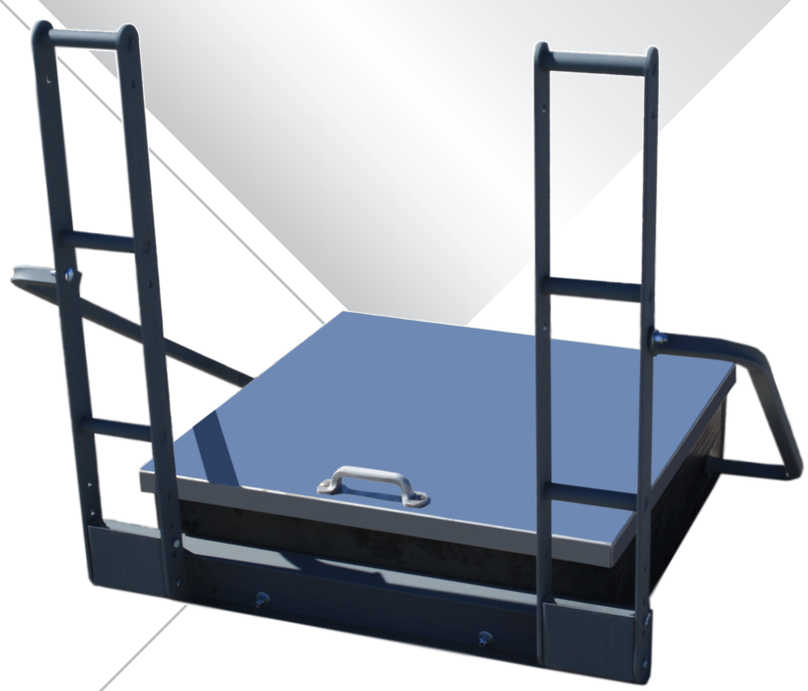
HatchGrip®

Product Literature

PS Safety Access™
We Won't Let You Down

HatchGrip® provides ladder rung continuation grips that extend beyond your hatch opening. These horizontal rungs ensure a firm, stable grip for employees exiting and entering a roof hatch. Simply mount HatchGrip to the exterior of your existing roof hatch to provide employees with a safe and easy rooftop transition.

HatchGrip is not intended to act as a barrier for guarding your rooftop opening. For a fall protection solution, see the PS DOORS HatchSafe® product.



Product Features:

- Bolts to roof hatch curb with gasketed connection
- Adjustable to fit hatch size up to 36" wide curb
- Powder coat gray non-slip finish for durability in exterior environments
- Provides variable height adjustments for proper and comfortable grip spacing
- Easily installed using only a few common tools
